MES Group Holdings Limited

# Your Trusted Partner For Digital Construction Transformation

## About MES

MES Group, an Asia-based BIM Project Management Consultancy (PMC) is the trusted partner for the digital transformation of the AEC industry since it was founded in 2011, delivering services in a specialized process from Management consultancy, research & Software Development, and Professional Training to Change Management.

Our Experts in BIM Project Life Cycle specialize in the fields of **Design Management, Procurement, Contract Management, Cost Management, Smart Construction Management, Procurement, Smart Asset Management (AM), Smart Facilities Management (FM), Geographic Information System (GIS) and IT & delivery system management.**

Together with our academic partners, we are constantly developing new technologies to assist our clients to facilitate their BIM project management and execution in the most efficient way to achieve the best value for their projects and meet their **ESG requirements** and **Sustainable Development Goals (SDG)**

Working closely with our partners from the industry, academic as well as policy-making sectors, we are dedicated to the “knowledge transfer” of state-of-art innovation and technologies into the real world. Our established BIM collaboration platform and cost management software, namely **ShareBIM®**, **DWSS**, **QIM5D®** and **AI Safety Solution** enable our clients to achieve value for their projects.
