

BIM & beyond.

Delivering bespoke services and solutions, for your bespoke needs.

MES Group, since its inception in 2011 and through its many presences across Asia, is a BIM project management consultancy that has been the forefront and trusted partner for the digital transformation of the AEC industry in Asia.

Working closely with our esteemed partners from the industry, academia as well as policy-making sectors, we are dedicated to enabling all stakeholders to achieve their best performance for their projects.

Talk to us about a solution perfect for your business needs.

- BIM-based CDE platform
